

HOW TO EARN GOLD

AT THE PIEDMONT TRIAD NON-LIFE MASTER REGIONAL IN FEBRUARY

Unit 169 is sponsoring a Non-Life Master Regional in Greensboro starting Thursday, February 11 and ending on Sunday, February 14, 2023. This tournament is limited to non-life masters with less than 750 Masterpoints. All Masterpoints will be either gold or red points. Here are the ways you can earn gold points.

NLM Gold Rush Pairs – These are two-session pair events that run on each Thursday, Friday and Saturday. We expect to have several sections. If you accomplish any of the following, a portion of your points will be gold points:

- Place in the overalls in the top stratum of the two-session event
- Win the top stratum of your section in either direction in either the morning or the afternoon session

NLM Side Series Pairs – There will be a side series pairs game that runs every morning on every day. There will be another side series pairs game that runs every afternoon on every day. This game is an excellent choice for individuals who only want to play in one session on given day(s). If you play in at least two sessions in either the morning series or the afternoon series, then you will win gold (as well as red) points if you accomplish any of the following:

- Place in the overalls (overalls are determined by taking the best two rounds of all players) in either the morning or the afternoon games
- Win the top stratum of your section in either direction on any day

NLM Gold Rush Stratified Swiss – This two-session game will be available on Sunday. Stratification is per Director's discretion and based on attendance. Possible stratifications: 0-100, 100-350, 350-750.

Generally speaking, the gold award will be 33% of the total points awarded. This is a wonderful opportunity for ACBL members to win gold and red masterpoints.
